OVERVIEW

Motivated student from the Vocational school for computer programming and innovation, looking for a summer internship and then continuing work as a junior developer. I am specialized and experienced in Java and Web Development with Spring Boot, Vue.js and Typescript. I have decent knowledge in SQL database development and cloud providers for hosting. I am seeking to expand and apply my programming skills in a real workspace.

SKILLS

| | | |
|--------------------------------|-----------------------------|-------------------|
| Fluent in Java, C++ and JS | High English level - C1 | Critical thinking |
| Experienced in web development | Decent with time management | Curiosity |
| Adaptive with new technologies | Skilled at problem solving | Flexibility |

PROFESSIONAL EXPERIENCE

Production practice Feb 2024 - Present
Technologica

A school practice with a mentor from Technologica. My task was to develop an online music streaming platform with multiple features. Using MVC architecture and technologies like Java SpringBoot, Thymeleaf, H2/MSSQL database, while documenting and tracking my progress.

Production practice Feb 2023 - Jul 2023
Enloc

Learn and develop an app with Flutter. Having a mentor from Enloc who taught us to work with Flutter, Dart and Android Studio. And finally creating a multi-platform application for education. The project I made uses the NASA Api and gives daily news, pictures and other information about the Space.

EDUCATION

Sep 2020 - Present

Vocational school for computer programming and innovation - Burgas

Major: Application programing with Java
